At record level

ATOSS Software AG released preliminary Q1 2010 figures on April 26, 2010. Sales of EUR 7.1m **met the high expectations**. Earnings even slightly exceeded estimates because of the slightly better quality of sales (high share of licenses and maintenance). It should be emphasised in general that ATOSS achieved a very good previous year's value in a quarterly comparison, with software license and maintenance sales being up, while consulting sales were slightly down.

FY 2010 is expected to only see moderate sales and earnings growth (SES) compared to record year 2009, as ATOSS benefited from an extraordinarily high order intake in 2009.

That ATOSS will presumably be able to slightly expand the record level in 2010 as well, is attributable to the further acquisition of new customers and the company's conservative sales generation. New customers acquired in Q1 also include **one of the largest DIY chains**, which assigned ATOSS with an installation across Europe. Retailers continued to be an important customer group in Q1.

ATOSS' balance sheet situation is particularly positive: Liquid funds grew by 21% qoq, now totalling EUR 20.2m (EUR 5.11 per share). The equity ratio is still 57%.

The estimates remain unchanged. Q2 earnings (26.07.10) are also expected to moderately increase yoy. Buy rating reiterated. **Based on the DCF model the PT continues to be EUR 19.**

Company background

ATOSS Software AG is a provider of software and services to optimise the deployment. With its solutions ATOSS optimises personnel processes and thus improves the service level, the efficiency as well as the employee and customer satisfaction. The company has assumed a leading position particularly in the German speaking area: 4,000 companies and approx. 2.5 m employees use ATOSS solutions from SMEs to blue chip companies.

Competitive quality

As to competition ATOSS primarily benefits from the following strengths:

- ATOSS has a leading software product (state-of-the-art Java technology)
- ATOSS is specialised in regions and sectors (country-specific employment conditions in the DACH region and reproduction of working processes in the core sectors)
- ATOSS is independent of manufacturers (no commitment to hardware of large software manufacturers)
- The solutions of ATOSS are highly compatible (e.g. seamless integration in ERP systems possible)
- The financial stability and balance sheet quality of ATOSS are excellent.
- ATOSS is a relatively large supplier (compared to competitors who are often considerably smaller; this is quite important for ATOSS)
