

CHRIST: A brilliant shopping experience

Germany's number 1 jeweler selects ATOSS solution to optimize workforce management.

Munich, May 19, 2014. **CHRIST Juweliere und Uhrmacher since 1863 GmbH appreciates the value of workforce management at its 200 branches across Germany. The ATOSS solution will in future ensure that customer footfall and staff availability at POS are even better coordinated, while the supply chain functions smoothly in the background.**

As part of the DOUGLAS Group, CHRIST values top notch quality, excellent service, expert advice and that all important extra bit of time for its customers. Customer satisfaction at the POS enjoys top priority at this long-established company, with its around 2,300 employees. To meet this challenge, the company has opted to deploy the ATOSS Retail Solution at its branches as well as at its own logistics center. "We always focus on the customer – which is why our timing needs to be just right, both customer-facing and behind the scenes. We consistently orientate our staff deployment to meet actual needs. On the shop floor, this is the customer, whereas in logistics, it's our goods flow. We aim to generate measurable added value", as Melanie Thomann-Bopp, Commercial Director at CHRIST outlines.

With the addition of CHRIST, the list of ATOSS customers now includes another subsidiary of the DOUGLAS Group. DOUGLAS HOLDING, Douglas Parfümerien, AppelrathCüpper, Thalia.ch and Thalia.at already rely on the ATOSS Retail Solution to safeguard the demand-optimized and employee-oriented workforce management.
