On April 17, 2014, ATOSS Software presented key figures for the first quarter. These figures exceeded expectations. The important revenue from software licences was particularly strong.

- Revenue from software licenses increased by 21% to EUR 2.1m. Order entry for software licenses rose from EUR 1.3m to EUR 2.8m. In the first quarter, ATOSS recorded particular success in gaining new customers in the important retail sector. The order backlog in software licenses rose in the first quarter to EUR 4.1m compared to EUR 3.3m the year before.
- In light of the strong order entry in the software licenses area, which leads to service and maintenance revenues, strong performance is to be expected in the course of the year.
- As a consequence of the good business development, the liquidity rose to EUR 19.5m following EUR 15.3m on 31.12.13.

Overall, the forecasts and the price target for the ATOSS share are again being slightly increased. With a price target of **EUR 31 (29)** the recommendation continues to be **Hold**.

Company Background

- ATOSS Software AG is a supplier of software and services for the optimisation of workforce management.
- ATOSS solutions optimises companies' personnel procedures, improving the level of service and efficiency of the employees and improving customer satisfaction
- The company has achieved a leading market position, particularly in the German speaking countries.
- From medium-sized companies (Mittelstand) to blue-chip firms, several million employees use ATOSS solutions.

Competitive Quality

- ATOSS has a leading software product (the most modern Java technology)
- ATOSS specialises in regions and industry sectors (country-specific work conditions in the Germany, Austria, Swiss region and mapping out work processes in core industries)
- ATOSS works independently of producers (no ties to hardware or large software producers) and the ATOSS solutions have a high level of compatibility (e.g. seamless integration in the ERP systems possible)
- Financial stability and balance sheet quality is excellent, which can be regarded as a competitive advantage in the software industry.
- ATOSS is a relatively large supplier (in comparison to the competition) among many much smaller suppliers, which still pose stiff competition for ATOSS.

LEGAL DISCLAIMER

This research report was prepared by the Warburg Research GmbH, a subsidiary of the M.M.Warburg & CO KGaA and is passed on by the M.M.Warburg & CO KGaA. It contains selected information and does not purport to be complete. The report is based on publicly available information and data ("the information") believed to be accurate and complete. Warburg Research GmbH neither does examine the information to be accurate and complete, nor guarantees its accuracy and completeness. Possible errors or incompleteness of the information do not constitute grounds for liability of M.M.Warburg & CO KGaA or Warburg Research GmbH for damages of any kind whatsoever, and M.M.Warburg & CO KGaA and Warburg Research GmbH are not liable for indirect and/or direct and/or consequential damages. In particular, neither M.M.Warburg & CO KGaA nor Warburg Research GmbH are liable for the statements, plans or other details contained in these analyses concerning the examined companies, their affiliated companies, strategies, economic situations, market and competitive situations, regulatory environment, etc. Although due care has been taken in compiling this research report, it cannot be excluded that it is incomplete or contains errors. M.M.Warburg & CO KGaA and Warburg Research GmbH, their shareholders and employees are not liable for the accuracy and completeness of the statements, estimations and the conclusions derived from the information contained in this document. Provided a research report is being transmitted in connection with an existing contractual relationship, i.e. financial advisory or similar services, the liability of M.M.Warburg & CO KGaA and Warburg Research GmbH shall be restricted to gross negligence and wilful misconduct. In case of failure in essential tasks, M.M.Warburg & CO KGaA and Warburg Research GmbH are liable for normal negligence. In any case, the liability of M.M.Warburg & CO KGaA and Warburg Research GmbH is limited to typical, expectable damages. This research report does not constitute an offer or a solicitation of an offer for the purchase or sale of any security. Partners, directors or employees of M.M.Warburg & CO KGaA, Warburg Research GmbH or affiliated companies may serve in a position of responsibility, i.e. on the board of directors of companies mentioned in the report. Opinions expressed in this report are subject to change without notice. All rights reserved.

COPYRIGHT NOTICE

This applies, in particular, to reproductions, translations, microfilming, and storage and processing on electronic media of the entire content or parts thereof.

DISCLOSURE ACCORDING TO §34B (1) OF THE GERMAN SECURITIES TRADING ACT (WHPG) AND THE ORDINANCE ON THE ANALYSIS OF FINANCIAL INSTRUMENTS (FINANV)

The valuation underlying the investment recommendation for the company analysed here is based on generally accepted and widely used methods of fundamental analysis, such as e.g. DCF Model, Free Cash Flow Potential, Peer Group Comparison or Sum of the Parts Model. The result of this fundamental valuation is modified to take into consideration the analyst's assessment as regards the expected development of investor sentiment and its impact on the share price.

Independent of the applied valuation methods, there is the risk that the price target will not be met, for instance because of unforeseen changes in demand for the company's products, changes in management, technology, economic development, interest rate development, operating and/or material costs, competitive pressure, supervisory law, exchange rate, tax rate etc. For investments in foreign markets and instruments there are further risks, generally based on exchange rate changes or changes in political and social conditions.

This commentary reflects the opinion of the relevant author at the point in time of its compilation. A change in the fundamental factors underlying the valuation can mean that the valuation is subsequently no longer accurate. Whether, or in what time frame, an update of this commentary follows is not determined in advance.

In accordance with § 5 (4) of the Ordinance on the Analysis of Financial Instruments (FinAnV) Warburg Research GmbH has implemented additional internal and organisational arrangements to prevent or to deal with conflicts of interest. Among these are the spatial separation of Warburg Research GmbH from M.M.Warburg & CO KGaA and the creation of areas of confidentiality. This prevents the exchange of information, which could form the basis of conflicts of interest for Warburg Research in terms of the analysed issuers or their financial instruments.

The analysts of Warburg Research GmbH do not receive a gratuity – directly or indirectly – from the investment banking activities of M.M.Warburg & CO KGaA or of any company within the Warburg Group.

All prices of financial instruments given in this financial analysis are the closing prices on the last stock-market trading day before the publication date stated, unless another point in time is explicitly stated.

M.M.Warburg & CO KGaA and Warburg Research GmbH are subject to the supervision of the Federal Financial Supervisory Authority, BaFin.

SOURCES

All data and consensus estimates have been obtained from FactSet except where stated otherwise.

Section 34b of the German Securities Trading Act in combination with the FinAnV requires an enterprise preparing a securities analysis to point out possible conflicts of interest with respect to the company that is the subject of the analysis. A conflict of interest is assumed, in particular, when the enterprise preparing the analysis ...

- 1- ... or companies affiliated with this enterprise **holds 5%** or more of the share capital of the analysed company
- 2- ... or companies affiliated with this enterprise were involved in the management of a **consortium** for a public offering of securities which are or whose issuer is the subject of this report within the last twelve months
- 3- ... or companies affiliated with this enterprise **manages** the **securities** of the analysed company on the basis of an existing contract
- 4- ... or companies affiliated with this enterprise over the previous 12 months has been providing **investment banking services** for the analysed company for which a compensation has been or will be paid. Warburg Research GmbH receives indirect remuneration from the investment banking activities of M.M.Warburg & CO KGaA.
- 5- ... effected an **agreement** with the analysed company **for the preparation of the financial analysis**
- 6- ... or companies affiliated with this enterprise **regularly trade** in shares or derivatives of the analysed company
- 7- ... or the analyst responsible for this company has **other important financial interests** in relation to the analysed company such as e.g. the performance of mandates for the analysed company

This report has been made accessible to the company analysed.
